Oromarine S13 coupe
Oromarine ST3 coupe

Evolution of the species.

We have dedicated this model to those who are not content! Those who choose it have the sensation of sailing on board a boat that is larger than the homologation is (12.45 m. the overall length - 9.95m. the homologation lenght) that makes it remain in the italian category "boat" with all the benefits of case. By day it is a large open boat designed to accommodate up to 24 people, who have at their disposal two fixed sunbathing (bow and stern) of generous size, to which is added an additional sectional sundeck, obtainable with the conversion of the table and the addition of a special cushion. But it is certainly at night that the S13 change its configuration. In console for example, which is accessed by a front door, just add a floor in the center of two standard benches with its pillow, and you will get a double bed. All completed by porthole, shower, marine WC and dunnage in Iroko. On the stern sunbathing, by mounting a special tent, it's possible to have a bed-cabin for three more people. The whole is complemented by a cooking corner that can be obtained behind the piloting seat, which can be completed with burners and 67 liters fridges. The console is spacious and ergonomic to handle the entire boat, the engine can be either outboard (2 x 400 horsepower) or sterndrive for a total of 800 hp installable, even if it takes less "cavalry" to get performances that fully satisfy lovers of speed.

Caratteristiche tecniche

Lunghezza f.t.:	mt. 12,45
Lunghezza omologazione:	mt. 9,95
	mt. 3,75
Peso con motori:	Kg. 3.000
Diametro tubolari:	mt. 0,60
Tessuto tubolari:	
Hypalon Pennel Orca	1670 dtex
Compartmenti stagni:	n. 8
Portata persone:	n. 24
Motorizzazione max:	Kw 2 x 294 (hp 2 x 400)
Omologazione CE:	cat. B

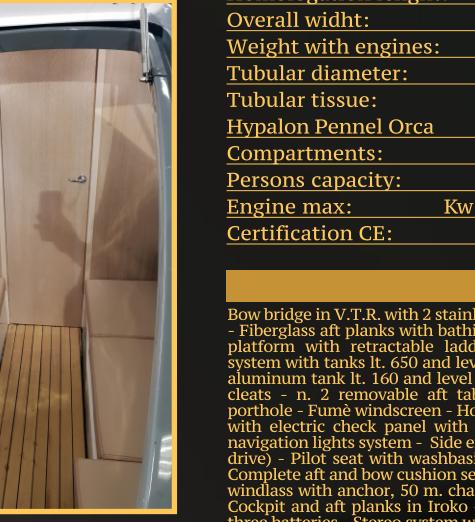

Dotazioni di serie

Plancia di prua in vtr con 2 bitte inox - Plancette di poppa con scaletta (f.b.) o ampia plancia con scaletta a scomparsa (e.f.b.) - Impianto carburante con serbatoio inox da lt. 650 con indicatore di livello - Impianto acqua dolce con serbatoio in alluminio da lt. 160 con indicatore di livello - n. 2 bitte inox a poppa - n. 2 tavoli di poppa regolabili - Oblo inox - Parabrezza fumè - Tromba - Bussola - Console di guida con pannello elettronico con 14 funzioni di controllo - Impianto luci di via - Prese d'aria laterali vano motore (e.f.b.) - Sedile di guida con lavabo e rubinetto interno - Prendisole di poppa e di prua completi a cellule chiuse - Verricello elettrico con ancora, 50 mt. di catena e controllo remoto - Rivestimento Iroko pozzetto e plancette poppa - Impianto elettrico a 3 batterie - Impianto stereo con 4 altoparlanti - Impianto WC in console con doccia e pagliolo in Iroko - n. 2 panche laterali e scaletta
